REPORT  
OF THE  
BOARD OF ADMINISTRATORS OF THE CHARITY HOSPITAL

*For the Year Ending December 31st, 1889.*

---

CHARITY HOSPITAL,  
STATE OF LOUISIANA, February 3, 1890. }

To His Excellency FRANCIS T. NICHOLLS, Governor of Louisiana, Ex-Officio President of the Board of Administrators of the Charity Hospital:

*Your Excellency*—In accordance with custom and law, it again becomes the duty and pleasure of the board to report to you the workings of the hospital during the past year.

There has been no prevalent epidemic influence in the hospital during the past year. Considerably over 20,000 patients have been treated in 1889, including the outside visitors for relief.

The House Surgeon's report herewith will give full details. In fact, you have, accompanying this, reports of the chief officers and committees of the board, which will furnish a comprehensive account of the present condition of the hospital. At the last report the chief work then contemplated was a thorough system of automatic closets throughout the buildings, and the vastly improved ventilation of the main building. These greatly needed improvements have been accomplished and many others of a minor character, detailed in the report of the House Committee.

The report of the Finance Committee and that of the Secretary and Treasurer will give a correct statement of the finances of the institution, and in this connection the board would again most respectfully urge upon the General Assembly the great necessity of providing against the discount of the state warrants, which con-

stantly cripples and embarrasses the board in the management of the hospital.

The greatest economy has been used consistent with efficiency and the welfare of the patients, and very much is due to the judicious management of the Finance and House Committees for the good results obtained with their limited means.

The essential works now contemplated and greatly needed are an extension of the dormitory of the Sisters' department, and separate buildings on the hospital grounds for an outdoor clinic. These claims are urgent and the board hope that some way may be opened to enable them to compass these desirable objects.

In order that there may always be members of the board present, familiar with the duties and requirements of the hospital in its efficient management, it is thought wise to suggest to your Excellency to appoint the members hereafter in such a manner as to have about half of them hold over. This is believed to be the judgment of the present board, and therefore they would respectfully suggest it.

In conclusion, it is believed that the hospital, both in its official and domestic management, is in a satisfactory condition.

The good Sisters need no praise at our hands. Their always faithful and conscientious services have greatly aided the board in the conduct of the hospital.

All the officers in their various departments have fulfilled the full measure of their duties, and the gratitude of the board and their fullest commendations are due them.

The Resident Students have always been kind, courteous and efficient, and the Ambulance Corps have been always ready and untiring in their emergency calls.

With assurances of high regard, I remain your obedient servant,

C. J. BICKHAM,

VICE-PRESIDENT.

## REPORT OF THE SECRETARY AND TREASURER.

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, January 1, 1890. }

To the Vice-President and Board of Administrators:

*Gentlemen*—I herewith present the usual annual statements, and would further submit for your consideration the following abstract under appropriate heads:

STATE WARRANTS, 1888.

The warrants for the second quarter of this year, \$10,000, reported pledged in last annual report, 1888, to the Louisiana National Bank to secure a loan for \$7500, continue hypothecated to that institution, the interest being paid thereon to December 31, 1889. They have been held under advice of final payment by the state in the immediate future.

STATE WARRANTS, 1889.

Of the issue of warrants for 1889 those for the first quarter were paid by the state in cash on May 13, 1889. The second, third and fourth quarters, aggregating \$32,000, are now pledged with the Hibernia National Bank to secure the loans obtained thereon. Assurances are held out that these outstanding warrants will be redeemed by the state in cash and at an early date.

DISCOUNT ACCOUNT

The discount on sales of warrants of 1887-1888, reported in last annual report, added to interest paid to banks on loans, foots up \$11,186.89.

## LEGACIES.

On November 25, 1889, the hospital came into possession of \$1500 (\$1000 to hospital proper and \$500 to the ambulance fund), under will of Pierre Claude Samory, recently deceased. It was appropriately acknowledged, and in conformity with our rules the name of the benefactor has been carved on the marble tablet in the main corridor of the hospital.

In conclusion, I present herewith "Tables of Receipts and Disbursements for 1889," "Comparative Tables of Disbursements for 1888 and 1889," "Balance Sheet of Books to December 31, 1889," "Table of Property, etc.," "Statement of Insurances," and "List of Cash Donations and Legacies."

Respectfully submitted.

EDWIN MARKS,  
SECRETARY AND TREASURER.

## REPORT OF THE HOUSE COMMITTEE.

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, February 3, 1890.

To the Vice-President and Board of Administrators:

Gentlemen—Your House Committee would respectfully report that the general condition of the hospital in all of its departments continues fully up to the standard as heretofore. Under their proper headings we report the undermentioned improvements, etc., for the year 1889 :

AUTOMATIC SYSTEM OF WATER CLOSETS, ETC.

During the year just closed an elaborate, modernly-contrived system of closets, with the proper auxiliary appurtenances, has been introduced throughout the hospital, adding largely to its hygienic requirements and enforcing cleanliness as well as privacy. The convenience and comfort to the patients renders the change a marked one, bearing full and favorable comparison with other hospitals in the United States.

The bathrooms of the hospital have undergone improvement; new and larger openings have been made, resulting in additional light and increased ventilation.

THE VENTILATION OF THE MAIN BUILDING

has been much improved by the perforation of the walls separating the wards from the corridors. These openings, forty-five in number, have been framed and finished, and their effect has been to equalize the temperature and permit the distribution and final escape of the mephitic atmosphere inseparable from the sick chamber.

As a part of the system, and encouraging the admission of the fresh atmosphere from the outside, and adding to the light and cheerful appearance of the halls, there have been introduced at their ends on the second and third floors large circular headed frames, replacing the former low windows.

#### GENERAL REPAIRS, REPAINTING, ETC.

These embrace repairs to the roofs and exterior painting, all done in a thorough, workmanlike manner. The exterior of the main building has received three solid coats, the front office two and the wood work and window frames of the ambulance house two. This necessary work has been added to by interior painting, kalsomining, etc., wherever needed.

#### PROPERTY ON VILLENE STREET.

This property, the legacy of the late Jean Ferran, has been kept in good repair and rented throughout the year.

#### CONTRACTS FOR SUPPLIES.

After due advertisement and the inviting of competition, the contracts for supplies of meat, bread, milk and coal were let out, resulting in reduced prices on some articles. The service has been performed satisfactorily by the contractors.

#### AMBULANCE SERVICE.

This service continues efficient and satisfactory. The ambulances have been kept in good order, and needed repairs to them, the running gear, etc., have been timely looked to. Four new horses have been purchased, to replace a like number considered unfit, and which were traded for at favorable figures in exchange.

The Board of Health having recently complained of the exudations from the privy vaults of the ambulance house, such changes have been made as to remove the nuisance complained of, and fully to the satisfaction of that board.

#### GROUTING THE HOSPITAL YARD.

The entire yard of the hospital has been recently grouted

with Portland cement, and at small cost. It has much improved the drainage and consequently added to the sanitary arrangements of the institution.

#### WORK ENTERED INTO AND CONTEMPLATED.

The contract for the enlargement of the "Sisters' Dormitory" has been awarded competent and solvent bidders, after due competition, and the work is being proceeded with under the daily superintendence of Chief Engineer Ponder. When finished and occupied it will add much needed comfort to the estimable and unselfish Sisters.

The matter of buildings for the Outdoor Clinic is being attended to by a special committee of the board, who are making fair progress.

#### INTRODUCTION OF THE ELECTRIC CURRENT.

The council of the city of New Orleans have been petitioned for the use of their fire alarm telegraph poles for the conveyance of the Edison electric current to the hospital for use in the medical and surgical departments. It will be introduced under all proper safeguards and under the supervision of experts in such matters.

In conclusion, we beg to commend the conscientious, untiring and self-sacrificing efforts of the Sisters of the hospital, whose work in behalf of our great charity cannot be measured. Thanks are also especially due to Chief Engineer Ponder (whose report accompanies this) for his invaluable aid in practically directing the improvements herein mentioned.

Respectfully submitted.

WM. G. VINCENT,

J. H. KELLER.

## REPORT OF THE FINANCE COMMITTEE.

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, January 1, 1890.

To the Board of Administrators:

Your Finance Committee has the honor to report that the prominent feature of the financial movement of the Charity Hospital, during the year just passed, is, as usual, the loss incurred by discount on the sale of our warrants, amounting to \$10,650 in all; exclusive of the discount paid for carrying our debts.

By painful economy in every department of the hospital, the ordinary monthly expenditures were reduced to a point at which it seemed prudent to undertake such absolutely necessary repairs and improvements as the preservation of the buildings and the health of the inmates required. Consequently these works were undertaken, completed and paid for; but the total expenditure for the year 1889, including those special accounts, exceeds only slightly the sum allotted to the ordinary annual expenditures in former years.

Our current debt is \$24,390. We have no floating debt, however; all our December bills and accounts having been paid within said month.

Respectfully submitted,

JNO. G. DEVEREUX,

G. W. SENTELL,

MORRIS SCHWABACHER,

FINANCE COMMITTEE.

## DONATIONS.

## ACKNOWLEDGED BY SISTER AGNES, 1889.

King's Daughters, 12 cornies of choice candy for the children.

Miss Fauche, large quantities of Harper's Bazars.

Mrs. Graham, old clothes and linen for charpie.

Mr. F. Carroll, reading matter, sundry times.

Miss Flora Loeb, fruit cakes and clothes, monthly.

Miss Rawlins, fruit cakes and clothes, monthly.

Messrs. A. Lehman & Co., two loads kindling wood.

Mr. Tebo, at J. P. Richardson's, jean samples for making slippers.

Mr. James Cavanagh, New York, allowance for broken glass,  
\$7 75.

A. Lehman & Co., two bolts calico, 109 yards, for children's dresses.

Messrs. Doyle & Rice, kindling wood, sundry times.

Mrs. Harrison, old linen for charpie.

W. H. Ziegler & Co., parcel of choice and raw cotton for surgical dressings.

The Misses E. Converse, H. Campbell, C. Fairchild, L. Nolan, F. Noyes, H. Montgomery, N. Price, F. Wilson and N. Spellman (King's Daughters), 10 mosquito bars for children's ward; also toys, etc., for Chirtmas tree.

Mrs. E. Lewis, 25 boxes strawberries.

Mrs. J. B. Bassich, large waiter of choice cakes.

Mrs. Sawyers, large old linen sheet for charpie.

Mrs. Siegel, two large fruit cakes and sundry cuttings of new flannel.

Mrs. Jos. H. DeGrange, bolt of white cotton and sundry new clothes for children.

Ladies of the Mint, handsome scrap-books, dolls, etc.

Miss Eftie Sheppard, pretty book, to be given to the child afflicted in same manner as the donor.

Through the mail from Delhi, workbox, toys, etc.

St. Margaret's Daughters, through the Misses E. A. Waldo and M. S. Elder, two dozen infant trousseaux, all new.

Mrs. Müller, cakes, fruit, etc., for children, sundry times.

Mrs. I. Newman, large tray assorted confectionery, very choice.

Mrs. M. Schawbacher, clothes for children.

S. B. Patterson, 200 oysters.

Mrs. M. Gillis, 24 boxes strawberries.

Mr. Louis Ruch, fruit, sundry times.

George Koch (French Market), vegetables, sundry times.

Mr. Austin, Purser S. S. Americana, reading matter.

Mrs. Sawyers, old linen, reading matter, etc.

Mr. and Mrs. George Denegre, Mr. E. H. Farrar, Mr. Omer Villere, Mr. E. Kruttschnitt and Mr. R. M. Walmsley contributed for one ride weekly for the children during summer, and Messrs. Johnson & Son, 174 Magazine, kindly furnished vehicles at half price.

Weekly contributions of reading matter received from boxes placed in the Postoffice, Cotton Exchange and billiard halls by Mrs. George Denegre.

Mr. J. H. Keller, 1 barrel gluho and box soapina.

August Larrien, coop of pigeons and turkeys.

Owen Cahill, one turkey.

Louis Ruch, four turkeys.

Mrs. J. Moran, Fort St. Phillip, barrel oranges.

J. L. Beer, 2 barrels potatoes.

Mrs. Curtis, 3 geese.

I. Schwartz (Canal street), reading matter daily.

Young Men's Christian Association, journals, bazars and sundry reading matter several times.

---

Messrs. Seabury & Johnson (New York), allowance on freight \$12.00.

Mrs. R. M. Walmsley, Mrs. Gayle Aiken, Mrs. George K. Pratt, Mrs. David Jamison, Mrs. Norman Eustis, Mrs. Albert Vaught, Mrs. Edgar Farrar, Mrs. George Denegre, Misses Louise Villere, Lizette Rea, Angele Ping, Emma Butts and Helen Leeds, clothing for children.

Mrs. Müller, clothing for children and nurses.

Mrs. A. Baldwin, scrap-books, dolls, etc.

Edith Hall, periodicals.

Miss Morris, toys, etc.

A. Lehman & Co., case of samples, sundry times.

Messrs. Levy, Loeb & Co., calico samples for quilts, sundry times.

Mrs. George Denegre and E. Farrar, turkey, nuts, raisins and candy for boys.

Mrs. Seeman's Kindergarten and Froebel Club furnished Christmas tree with many pretty toys, dolls, etc.

Ladies of the Flower Mission visit the hospital regularly, bringing fruit, flowers, etc., and for Christmas their usual offerings for patients number seven hundred bags of fruit and candy.

A friend, \$5.00.

## ANNUAL REPORT OF THE HOUSE SURGEON.

CHARITY HOSPITAL  
STATE OF LOUISIANA,  
December 31, 1889. }

To the Board of Administrators:

*Gentlemen*—I beg to present herewith the records of the medical department, and report briefly on the general management of the hospital during the past year.

At the last report, 651 patients remained under treatment; during the year, 5794 new patients were admitted.

The admissions comprised 4018 white and 1776 colored; males 4301, females 1495; children under ten years of age 170 (white 157, colored 13).

The total number of inmates was 6445; the daily average of inmates remaining at the close of each day was 588. The number of inmates was 134 more than last year, yet the daily average at the end of each day was 85 less, showing that the patients remained under treatment a comparatively shorter time.

Of the 6445 inmates treated 4928 were discharged; cured 2484, or 50 per cent.; improved 1589, or 32 per cent.; unimproved 855, or about 18 per cent.

There were 920 deaths—a total mortality of 14 per cent. Deducting 197 cases, fatal within twenty-four hours after admission, most of whom were moribund when admitted, the total mortality is reduced to 11 per cent. These figures indicate the usual death rate of the hospital. Of the fatal cases 231 were between 60 and 80 years of age, 17 between 80 and 100, 2 exceeding 100 years.

The Outdoor Department gave relief to 13,938 visiting patients, each of whom made an average of six visits. Many of them received, in addition to the benefit of the consultation, either medicines or surgical dressings.

This department is annually increasing in importance and encroaching more and more on the indoor service of the hospital.

Provision for conducting the Outdoor Clinics without detriment to the inmates, as indicated in previous special reports, is a matter paramount to all others relating to the medical management.

The Ambulance Corps answered 1345 calls during the year. The efficiency of this department deserves special mention, and I testify with pleasure to the competency of our staff of students and their zealous discharge of duty.

The medical work of the year, stated briefly, comprises the indoor treatment of 6445 patients and the outdoor treatment of 13,938, including 935 cases of minor surgery attended in the operating room, all told, amounting to 20,383 patients.

The annual reports from the several departments are approved and herewith transmitted. The report of the Pathologist, Dr. H. D. Bruns, indicates a complete remodeling of his department, which has greatly enhanced its practical usefulness.

The officers in charge of their respective branches of the medical departments, the members of the visiting staff and the Assistant House Surgeon, Dr. J. D. Bloom, deserve our commendatory acknowledgments. The efficiency of the medical department is due to their conscientious and competent work.

The Sisters of Charity always share an important part in the work of the year, by their constancy, day and night, in the care of the ill and injured, contributing invaluable to their treatment. Their service to the hospital and its inmates we can only acknowledge gratefully, but cannot repay.

In conclusion, I beg to report favorably on the general condition of the hospital. The facilities for treating patients have been improved and increased during the year, and the sanitary condition of the main building and the premises has been decidedly improved by the work described in the report of your House Committee.

Respectfully submitted.

A. B. MILES,  
HOUSE SURGEON.

## PATHOLOGICAL DEPARTMENT.

CHARITY HOSPITAL,  
STATE OF LOUISIANA,  
NEW ORLEANS, February 1st, 1890. }

To the Honorable Board of Administrators of the Charity Hospital:

*Gentlemen*—I beg to report that during the year ending December 31, 1889, the following work has been done in the Pathological Department:

Autopsies.....	93
Specimens of Urine examined.....	1461
Specimens of Tumor examined .....	76
Specimens of Sputum examined and stained for Bacilli Tu- berculosis.....	67
Specimens of Tissue examined .....	9
Specimens of Fluid examined.....	8
Specimens of Blood examined.....	9
Specimens of Vomit examined.....	3
Specimens of Pus examined .....	11
Specimens of Tapeworm examined.....	2
Miscellaneous pathological specimens examined .....	7
Sections cut of eighty different specimens, ten (average) of each.....	800
Sections permanently stained and mounted for collection .....	160
Total number of sections permanently stained and mounted now in collection.....	406
Specimens mounted for collection in Museum.....	8
Photographs taken.....	80

Very respectfully,

HENRY DICKSON BRUNS, M. D.,

PATHOLOGIST.

CHARITY HOSPITAL, }  
December 31, 1889. }

To the Honorable Board of Administrators:

Gentlemen—I herewith respectfully submit my report of the Dental Clinic for the year ending December 31, 1889:

Total number of patients.....	1,449
White.....	954
Colored.....	495
Children.....	186
Total number of extractions .....	2,194
Extraction with cocaine.....	714
Alveolar abscesses treated .....	175

Respectfully submitted,

ANDREW G. FRIEDRICHs, M. D.
